## Probability:

| Objective | Sparx Task |  |
| :--- | :---: | :---: |
| use the terms likely, equally likely, fair, unfair, certain when <br> describing chance or likelihood | M655 |  |
| understand and use the probability scale from 0 to 1 | M941 |  |
| place theoretical probabilities accurately on the probability <br> scale | M941 |  |
| find probabilities based on equally likely outcomes in simple <br> contexts | M941, M938 |  |
| apply the property that the probabilities of mutually exclusive <br> outcomes sum to 1 | U683 |  |
| find the probability of A and B occurring and the probability of <br> A or Boccurring | M683 |  |
| systematically list outcomes |  |  |
| use the product rule for counting | M718 |  |
| complete sample spaces for combined events with equally <br> likely outcomes and calculate probabilities from these | M755 |  |
| interpret the frequency of outcomes of probability <br> experiments from tables and find relative frequency from <br> these | M206 |  |
| calculate expected outcomes of future experiments by <br> applying relative frequency |  |  |
| calculate probabilities from a two way table | M829 |  |
| calculate probabilities from a two way table, including <br> conditional probabilities | M829 |  |
| read basic Venn diagrams | M829 |  |
| complete Venn diagrams | M419 |  |
| complete Venn diagrams, including when the intersection <br> needs to be calculated |  |  |
| find probabilities from a Venn diagram |  |  |

## Angles and Lines:

| Objective | Sparx Task |  |
| :--- | :---: | :---: |
| Use scale factors, diagrams and maps | M112 |  |
| Produce a scale drawing | M112 |  |
| Use properties of triangles to work out unknown angles | M351 |  |
| Properties of quadrilaterals | M679 |  |

| Angles on straight lines | M818 |  |
| :--- | :--- | :--- |
| Angles around a point | M818 |  |
| Identify parallel and perpendicular lines | M814 |  |
| Calculate unknown angles when two lines cross at a point | M163 |  |
| Calculate unknown corresponding angles involving parallel <br> lines | M606 |  |
| Calculate unknown alternate angles involving parallel lines | M606 |  |
| Use co-interior angles to find missing angles | M606 |  |
| Work out unknown angles involving parallel lines including co <br> interior angels | M323 |  |
| Line and rotational symmetry of triangles to work out <br> unknown angels | M393 |  |
| Use properties of triangles to work out unknown angles | M653 |  |
| Solve angle problems involving quadrilaterals | M653 |  |
| Interior angles of regular and irregular polygons | M653 |  |
| Exterior angles of polygons |  |  |
| Problems with interior and exterior angels in polygons |  |  |
