## Area and Volume:

| Objective | Sparx Task |  |
| :--- | :--- | :--- |
| Find a perpendicular height of parallelogram |  |  |
| Find area of a parallelogram | M291 |  |
| Base and height of a triangle | M610 |  |
| Area of a triangle |  |  |
| What is a trapezium | M705 |  |
| Height of a trapezium | M705 |  |
| Area of a trapezium | M705 |  |
| Area of a trapezium practice | M303 |  |
| Trapezium area problems | M169 | M996 |
| Find missing lengths of a shape when given the area |  |  |
| Compound area | M231 |  |
| Circumference of a circle including in terms of pi | M269 |  |
| Area of a circle | M765 |  |
| Find the area of compound shapes including circles | M697 M722 |  |
| Find radius or diameter when given the <br> circumference or area | M465 |  |
| Surface area of simple shapes (prisms) using the <br> formulae for triangles and rectangles | M661 |  |
| Volume of a cube or cuboid | M465 |  |
| Volume of prisms including cylinders | M677 |  |
| Change between units of volume | M677 |  |
| Convert between metric measures for area and <br> volume | Find missing lengths in right angled triangles using <br> Pythagoras' theorem | Apply Pythagoras' theorem to prove whether a <br> triangle is right angled or not |
