| Objective | Sparx Task |  |
| :--- | :--- | :--- |
| 1.Understand types of algebraic expression and <br> manipulate by simplifying, cancelling, factorising etc | D663 |  |
| 2.Solve linear equations that involve <br> fractions/negatives/unknowns on both sides etc | U755 U325 <br> U870 U505 <br> U599 |  |
| 3.Use index laws with algebraic terms, including <br> fractiona//negative powers | D138 |  |
| 4.Rearrange a formula, including cases where the <br> subject is on both sides | U556 |  |
| 5.Factorise a quadratic expression (including <br> difference of two squares) | U228 U960 |  |
| 6.Generate and find nth term rules for linear <br> sequences | U498 |  |
| 7.Generate and find rules for quadratic sequences |  |  |
| 8.Recognise arithmetic/geometric sequences. Find <br> nth term rules for geometric sequences | U958 |  |
| 9. Substitute into the kinematics formulae |  |  |
| 10. Set up simple equations from word problems | U150 |  |
| 11. Recognise and use special types of sequences <br> such a primes/ triangular number/ Fibonacci etc | U680 |  |
| 12. Solve problems that involve a comparison of <br> sequences |  |  |
| 13. Use surds within geometric progressions |  |  |
| 14. Solve problems involving sequences in real life <br> situations |  |  |
| Equations \& Inequalities |  |  |

## Equations \& Inequalities

| Objective | Sparx Task |  |
| :--- | :--- | :--- |
| 1.Solve a quadratic equation by factorising. Including <br> squared coefficients greater than 1. | U960 U228 |  |
| 2.Solve a quadratic equation by using the formula | U665 |  |
| 3.Complete the square on a quadratic and use this to <br> solve an equation | U589 |  |
| 4.Solve two linear equations simultaneously by using <br> elimination and substitution methods | U760 |  |

| 5.Solve simultaneous equation with 1 linear and 1 <br> quadratic | $\bigcup 757$ |  |
| :--- | :--- | :--- |
| 6.Solve simultaneous equations with 1 linear and 1 <br> equation of a circle. | $\bigcup 875$ |  |
| 7.Set up simultaneous equations and interpret <br> solutions from problems. | $\bigcup 137$ |  |
| 8.Show inequalities on number lines and list sets of <br> solutions. | $\bigcup 509$ |  |
| 9.Solve linear inequalities and show solutions on a <br> number line | $\bigcup 759$ U738 |  |
| 10. Solve 2 inequalities and find which solutions <br> satisfy both constraints. | $\bigcup 145$ |  |
