

Number Properties and Calculations:

Objective	Sparx Task	
Divisibility Rules	M823	
Identify factors using division	M823	
Identify prime numbers	M322	
Identify and use multiples of numbers		
Recap add and subtract with negatives	M106	
Multiply with negative numbers	M288	
Divide with negative numbers	M288	
Index notation for squares and calculating with squares and square roots	M135	
Index notation and writing a number as a product of prime factors	M108	
Calculating square and cube roots using factorisation	M108	
Order of operations with multiply and divide	M521	
Calculations under a square root	M521	
More complicated operations involving calculations on numerators and denominators	M521	
Squaring negatives on a calculator and using a calculator	M757
