Induction materials

The induction materials that teachers use with you today will be available on Firefly in the Sixth Form section. Please spend some time during the summer holidays working through the materials in your chosen subjects to set yourself up well for the start of A-level work in September. These induction materials have been created at the suggestion of our current Y12 students, who wished that they had done some preparation before they started A-level courses.

They are also to help confirm that you have chosen the right A-level options. If you think you might like to change your A-level courses, please work through the induction activities for your preferred new options so that you will not be behind in September.

For students from other schools, you will be given a guest log-in for Firefly—the school on-line learning platform—before the holidays start.

iPads

Everyone at Prince Henry's Sixth Form will be expected to have an iPad or other electronic device e.g. laptop to use in lessons.

Students will have three options:

- Join the Sixth Form iPad scheme to lease an iPad (with option to buy after two years)
- Pick up a school iPad each day to use in lessons
- Bring your own iPad or other device from home

The iPad scheme and school iPad loans are designed to make sure there is no expectation that students should go out and buy a new laptop. There are computers available in the library for students to use during study periods if they need greater capability than the iPad can offer. However, students who have laptops or wish to purchase one for use in Sixth Form are welcome to use these as an alternative.
