

Reading Fiction – Activity sheet

Step one

Just to get you thinking about reading, answer the following questions:

How often does your son/daughter read?

What genres do they prefer? (Horror, Historical novels, Romance, Fantasy, Detective fiction etc.)

What fictional book do you remember the most and why?

How often does your child see you read?

Step two

So what should your child be reading? On the table you will find some book lists for you to take home.

Find 'The 50 books every child should read' article from the Guardian. Then put a **star** next to the books you think your child may have read. At home encourage your child to read a variety of genres.

Step three

Please take a copy of our recommended reading list for Key Stage 3 pupils.

This has been compiled by our year 8 students especially for this evening, for you to share with your son or daughter at home.
